

## REPUBLICANS ARE EXCITED

**HUGHES APPEARS AGAINST THE FIELD NOMINATION WILL NOT BE MADE UNTIL SATURDAY.**

CHICAGO, June 6.—From all indications and opinion of leaders, Hughes appears to be against the field for the nomination for candidate for the presidency, although Roosevelt's supporters claim having made considerable progress the last few days and the leaders are confident of success. Many are inclined to think that Roosevelt injured his chance by his failure to declare that he had returned to the republican party. It is conceded, however, that he may dictate as to who shall be the nominee.

A report is current that Senator Lodge will be one of the members appointed to draft the platform and that he intends to draw it to please the progressives. Mr. Lodge, it is known, will support Roosevelt in the event that Mr. Weeks fails to be considered.

The committee on credentials finished its labor.

A point that is causing annoyance was explained this morning when the leaders of the women organizations would insist in including a plank in the platform favoring the progressives principles. This it is thought may have the effect of delaying the nomination until Saturday.

### ARE TAKING MONEY ON WOODCHOPPER CREEK

(Fairbanks Times, May 22)

According to advices received in Fairbanks yesterday, Cleveland & Howell had a very large cleanup, their first of the season about a week ago. The cleanup on Plant No. 1 netted the operators \$40,000, while that on Plant No. 2 netted them \$28,000. And they did not seem to be a bit surprised at the amount cleaned up.

On one of his many visits to Fairbanks last winter and this spring, Mr. Cleveland stated that he had the greatest placer proposition in the north and that he would be able to work to the full capacity for three years. He is now employing over 200 men and is constantly putting more men to work.

Mr. Cleveland stated that he expected to take out over a million dollars in two years time, and that he felt confident that the ground would produce much more than that amount of money.

The letter stated that there are many people now at Woodchopper, and that most of the lines there are a little overdue. Labor is plentiful and, although there is work for most of the people there, any influx of laborers would work a hardship not only on the newcomers but also on the camp.

Business conditions are good, and everyone seems to have a little money. The social life of the camp is a busy one, with dances practically a nightly thing, and Saturday evening the entire town turns out to a big dance.
